

“Grateful for what I felt, saw, and received during the ceremony.

Clarity and confirmation in areas of my earthly life and why I feel the way I feel in certain earthly areas.

I really notice that I feel even more softening in those areas, because I know and feel that these are earthly processes/lessons that **my soul chose**.

I feel more **peace** in my system, allowing me to **enjoy** earthly life more.

I’m getting back **more pleasure** in certain areas, and truly feeling **the love moving** through me; **wow, words cannot express it**.

But I really feel that this comes from my **soul/my higher self**.

The voice of my soul is clearer and more audible.

Where a while ago, I sometimes experienced some noise or didn’t listen to it often, I am now doing that more and more.

I am taking steps and dare to jump... **truly in the process of self-love, and what makes me feel good**.

Life flows exactly as it should. I **trust** completely, lean back... because I know that the universe is catching me.

It carries me and has the best intentions for me.

Gifts drift toward me, wonderful conversations take place.

The guidance, the safe space, the softness and love from Marie José & Tatjana was/is so wonderful... **so pure!**

Both the **preparation, during, and aftercare** is so loving.

They are really there for you!”
